He is coeditor of the original Encyclopedia of Southern Culture. Together, these two theses entail linguistic relativity: the thesis that speakers of different languages differ in how they perceive and think in virtue of speaking different languages. Some researchers trace individualism and collectivism to material conditions.

The Psychological Foundations of Culture. Cultural materialists believe that thick description thwarts explanation, because the factors that determine social practices are largely unknown to practitioners. Examples of Cultural Influence Philosophers have long speculated about cultural variation, raising questions about whether people in different cultures differ psychologically.
