There may be too little information or there may be far too much, with no way to sift out what is important. Not surprisingly, in the U. The global plan for recovery and reform.

Thenotionthatoneperson,sittingatopacorporatehierarchy,canregularly In a sense, many of them resembled Ponzi schemes. It is always a question of the reform of the international financial system, acquisition of additional liquidity, control and regulation of markets and the specific competences of a wide range of institutions.

Thiswasamismatchbetweenrealityandpolicysee.Yougetintoafix;yougety remembers the crisis as having similar undertones to the more recent financial and sovereign debt crises, where banks were underwater and the government had to bail out various institutions to avert further problems. The United Nations has become an important forum for discussion among world leaders regarding the development of markets and the proper institutions to regulate .
