In recent years, science, technology, engineering, and math collectively known as STEM have received accolades, and a newfound push in these areas has promoted rigorous coursework focused on high-level cognitive thought. We must create and lead schools that are relevant for the world our students live in—not the world our staff grew up in. A comparison of the philosophies of today's school districts yields results that fall across a continuum of who controls and owns the learning. TheHolyFatherwillconsecrateRussiatome,shewillconvertandtheworldwi This means that the nation's highest-achieving subgroup has less than six out of ten students performing at or above grade-level expectations in reading. I could not see anything at . JacintaandFranciscowerekneelingdownnexttoabed,praying.Poor Holy Father!
