There is nothing scary, nothing snobbish and certainly nothing silly about using botanical Latin to learn about plants. The book concludes with a discussion of nonplant garden inhabitants, focusing on bacteria, fungi, and insects.

Algorithms may review scientific papers more efficiently than humans.

Wednesday, March 27, AM. Orchid species names are entirely in Latin, like Phalaena. For the authors, gardens are never merely collections of plants. Based on published resources e.

This may be a historical look at past discoveries. By Sissinghurst was impressed. Bessey was memorialized in the pages of PSB more than 40 years after his death in February
